Luxury is the *art of living*

# In the words of *Henri Giscard D'estaing*

*«The purpose of life is to be happy; the time to be happy is now, and the place to be happy is here!» These words, spoken by Gérard Blitz, a Belgian from Antwerp, when he founded Club Med in 1950, continue to inspire us today.*

In 1950, Club Med reinvented the alchemy of happiness: an extraordinary utopia founded on the concept of vacations where nature and outdoor sports, without constraints, are at the heart of the promise. With this new way of living together and this unprecedented style of holidays, Club Med invented the «all-inclusive» concept.

The Club Med Exclusive Collection marks a new chapter in Club Med's upscale journey. We have defined our own vision of luxury for those who choose to break free from usual norms and prefer precious moments and sharing in an exceptional and preserved environment.

This evolution aims for more conviviality and warmth. The decor, infrastructure, and quality of service remain important, but ultimately, it's the experience that truly matters. It caters to the growing need for consideration and ultra-personalization. Seeking a luxury that is less «formal,» less «traditional,» more human, and more mindful of its impact on the environment and host populations. It is from this realization that the Club Med Exclusive Collection was born.

Every morning, your butler prepares breakfast and sets the table. After leaving the slopes, at your request, our concierge service prepares a comforting snack for you to enjoy in your living room, cozied up near the fireplace upon your return.

## Nature and Authenticity

Located on the Plateau des Saix, in the heart of one of the most beautiful alpine landscapes between Lake Geneva and Mont Blanc, the small village of Samoëns is ready to reveal its true nature - generous, authentic and untamed. On the slopes, the exceptional ski area of Grand Massif pulls out all the stops: glacial cirques, a wide variety of family-friendly descents facing Mont Blanc or through the fir trees and breathtaking views of sublime peaks and preserved alpine meadows.

Participating and getting involved in the local community has always been of great importance to us. We support ASTERS, an organization dedicated to preserving the Savoie region. Our Resort is also BREEAM certified and Green Globe since 2018, two of the most demanding certifications in terms of ecotourism construction standards. We take daily concrete actions to minimize the environmental footprint.
